

Amended wording to replace that contained in paragraph 5.2 of the Panel Report, beneath the sub-heading 'Target 17 and its associated Indicator to be removed':

Existing Target 17 reports on the number of yearly breaches of planning control and complaints received relating to operational waste management facilities in the county.

The Waste Planning Authority has experienced difficulty obtaining the information to report on this target and the current system for monitoring enforcement cases is being considered as part of the enforcement review. The outcomes of the overall Enforcement Review are due to be presented to a future meeting of this Panel.

It is proposed that the target be changed, so that it still monitors the implementation of Policy 20 and relates to information that can be more easily acquired by the Waste Planning Authority.

It is proposed that Target 17 relate to the 'Annual Waste Surveys' which are handled directly by the Waste Planning Authority.

Amended wording to replace that contained within Table 1 of Appendix A, in the 'Keep/Modify Delete' column for Target 17:

Modify

The Waste Planning Authority has experienced difficulty obtaining the information to report on this target and is in the process of procuring new software for the recording of planning and enforcement information.

It is proposed that the target be amended to reflect the information required by the specific element within Policy 20 relating to the 'Annual Waste Surveys', which are handled directly by the Waste Planning Authority.
