

NASCOT LAWN TOPIC GROUP

The Recommendations of the Nascot Lawn Topic Group are:

1.0 Recommendations

- 1.1. That all partners agree and use protocols that are already in place more consistently to ensure effective, timely and thoughtful engagement to both understand the needs of users, stakeholders and partners and how this informs service delivery and development.
- 1.2. That all partners develop and use mechanisms already in place more consistently to ensure partnership working operates maturely at a time of financial pressure within a challenged system and provide examples of how this will be achieved and measured.
- 1.3. That services for our most vulnerable residents are commissioned, resourced and provided utilising a sound and authoritative evidence base.
- 1.4. Using this experience (as outlined in recommendations 1.1, 1.2, 1.3) to inform future working and decision making.
