**2.0 Summary**

- 2.1 The attached Integrated Commissioning Priorities have been developed in conjunction with colleagues from E & N and Herts Valley CCG's and Hertfordshire County Council, including Children's Services and Public Health. It is an overarching framework which details our joint principles and priorities for integrated commissioning during 2015/16.
- 2.2 The partnership has agreed that it will develop a shared quality assurance framework and a single, integrated commissioning strategy within each of the three priority areas; Early Childhood, 0-25 Integration for Children and Young People with Additional Needs and the whole system review of CAMHS.
- 2.3 This work will inform the development of a whole-system, best practice model for Hertfordshire and an overarching Integrated Commissioning Strategy to inform future needs, options, decision and strategies for partners responsible for commissioning and delivering children and family services. This will run alongside the development of the new Health and Wellbeing Strategy.
